#### a) iv Saturday April 19th into Sunday April 20th:

- Since the house is booked for the night of the 19th, it is possible the drivers will opt to stay an extra night and drive the following day into Monday (we still have off from school)
- If this ends up not being the case, we will drive back to Virginia, stay over, and finish the drive home to arrive on Sunday

#### a) v Gas costs will be split between the people in each car. When we are in South Carolina, we will split the costs between everyone.

**C. Safety:**

- Our primary concern is safety. Everyone on the trip has each other's cell phone numbers and is prepared to deal with any situation that comes our way.
- The closest hospital to our house is 35 minutes away (Port Royal Medical Center)
- We plan to make good choices, not go swimming alone or in the dark, stick together and not go anywhere alone, only drive if we need to and if we feel completely fine.

**D. Food:**

- It has not been determined if we are buying all of our food down in SC or if we will buy some up here in Irvington. It will most likely be up to individuals.
- Regardless, we will buy plenty of food to accommodate everyone who has allergies or is vegetarian or is kosher for Passover (we are planning to cook a seder on our first night there for the holiday!)
- The costs of food will be split equally among the 14 of us.

**E. Costs:**

- \$240 each for house rent (already paid)
- Transportation (gas/plane)
- Food
- Spending money for any day activities, shopping, or eating out

**F. Reminders:**

- Weather should be somewhere between 50 degrees and 70 degrees. Pack accordingly
- The house is being rented under Dillon's name. Therefore, he is liable for any damage or other problems.

**G. What to Bring:**

Georgia and Sophie are compiling a list of food and other essentials we will need to bring with us for the group. We can buy pretty much anything down there.

- Clothes: you know what you need for 4/6 nights and days possibly spent on the beach- keep it casual!
- Toiletries- even if the house does have products in it, it is doubtful there will be enough

for everyone and that what is there will cater to people's needs (again, feel free to buy anything/everything down there)

- Any medications you take, contacts/glasses
- Some nice clothes to go out to dinner in
- It is not recommended that people bring school work or laptops.
- Phone, camera, iPods, GPS, chargers

**H. Day Activities:**

- beach
- hikes
- possible day trip to Savannah, Charleston, or Beaufort
